Dane County	v 911 Incident i	Number:	

AUTO ALS DISPATCH RESPONSE REVIEW - Paramedic DATA

Each time that a paramedic unit responds to <u>any</u> call outside of its own primary jurisdiction into a non-paramedic district, the following data should be collected and recorded. These forms should then be sent as soon as possible after the call to the Paramedic Pilot Data Collection Workgroup via the Dane County EMS office.

Your personal Input on Incident: Was this an appropriate use/dispatch of the paramedic resource? If auto dispatched, do you feel the quicker response added value? Did you feel EMT/AEMT and Paramedic crews worked well as team? Paramedic Specific Services and Interventions Provided: Intubation or Drug Assisted Advanced Airway Placement Cardiac Arrest Medications/Management Seizure Management/Benzodiazepine Administration Pain Control/Narcotic Administration Chemical Sedation Cardiac Arrhythmia Management External Transcutaneous Pacing									
Reason for the Response: Paramedic Intercept (co-response with a BLS ambulance from another jurisdiction) Automatic Aid (based on the list of high level Priority Dispatch codes) General request for Paramedic Intercept originating from an EMT/AEMT ambulance Mutual Aid to non-paramedic district Was the paramedic unit canceled en route to the scene?	edic Unit Assigned To This Call: M								
Paramedic Intercept (co-response with a BLS ambulance from another jurisdiction) Automatic Aid (based on the list of high level Priority Dispatch codes) General request for Paramedic Intercept originating from an EMT/AEMT ambulance Mutual Aid to non-paramedic district Was the paramedic unit canceled en route to the scene? Y N Was patient contact made by the paramedic crew? Y N Was patient contact made by the paramedic crew? Y N Was the patient transported to a hospital? Y N If so, which ambulance transported the patient? EMT/AEMT Paramedic If so, which services were utilized to transport the patient (please circle all that apply) EMT/AEMT Paramedic Calculated time spent on scene (time paramedic unit arrived on scene to time en route to hospital): minutes Time paramedic unit was NOT available for another call Calculated total time spent on call (time unit dispatched to time unit was available) minutes While this paramedic unit was servicing this call in another jurisdiction, did any other paramedic unit need to answer a call within the paramedic unit's primary jurisdiction? Y N Initial Medical Priority Dispatch (EMD) Code: Chief Complaint/ Mechanism of Injury (after assessment): Was there concern about the accuracy of the initial Priority Medical Dispatch coding?
