

ASIM BASIC

ACTIVE SHOOTER INCIDENT MANAGEMENT – 2025

Course Description – Free training, interactive

The Goal of this course is to increase the effectiveness, coordination and resource integration between LE/Fire/EMS. “Counterstrike” game board enables emergency responders to exercise strategy, decision making, command/control, communication, and other skills in responding to an active shooter scenario. Participants deploy and manage resources under their control, with confrontation outcomes determined by dice rolls.

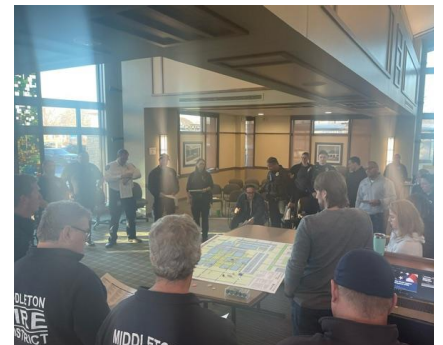

This class is for Fire, EMS, and Law Enforcement – from the Officer/Deputy FF/EMT all the way to Chief/Sheriff (it is critical that we have LE, Fire and EMS in every class or we will not be able to hold the session).

Upcoming classes:

- | | |
